

The Acts Name Count

February 15, 2012

originated October 6, 2009 by Steven Buren

This study is the name count associated with the document "A Secret in Revelation". As stated, all names of the book of Acts were counted, and listed in this document for verification.

Colors Legend - (Men) (Women) (City - Place - River - Tribe) (Idols)

Note: The is rule of "not counting Levites is removed in the New Testament Documents because the tribe of each mans origin is rarely mentioned.

Names of Idols were removed, even though they were once names of men.

The title Christ occurred 31 times, if it is counted as a name, we still get the same result for the final count.
