

The New Testament Name Count

Revision-711

November 3, 2007

This study is the name count associated with the document "A Secret in Revelation". As stated, that the names were counted and listed in this document for verification.

Notes:

Jesus and others referred to the Nation as Judaea. When Jesus spoke of Israel, this was of the man, or the children, or the people.

The high priests were assigned by the Romans and not always taken of the Levites.

Matthew 23; Rabbi is used and given as a name.

Counting of the Levites was excluded in Old Testament, but not in the grace of the New Testament.
